Concrete fiber composites are concrete elements made from a mixture comprised of hydraulic cements, fine and coarse aggregates, pozzolanic cementitious materials, admixtures commonly used with conventional concrete, and a dispersion of discontinuous, small fibers made from steel, glass, organic polymers, or graphites.

### **Concrete Construction Engineering Handbook, Second Edition**

Handbook refers to the individual(s) responsible for ensuring Contractor compliance with contract terms and conditions. Project inspection is provided to ensure that the Contractorâ€™s work complies with the contract requirements. Many details of construction are not specifically covered in the specifications and are optional with the Contractor.
